Sam's Day is an annual family fun day established by the Lack family of Burlington to commemorate their son's birthday, a poignant milestone in Sam's on-going journey to wellness after battling neuroblastoma. The event aims to raise awareness of the rare but deadly form of childhood cancer, and to raise funds for The James Fund, which supports researchers involved in leading edge investigation into new therapies for the treatment of neuroblastoma.

**Every dollar raised for The James Fund goes directly to research.**

Help make a life saving difference to kids like Sam.
